

Questionnaire for Users of Medspiration data products.

The Medspiration Service has been operating for nearly two years. It is expected to evolve into a service within the GMES Marine Cores Services. As we plan that transition, it will be most helpful to have feedback from our users, large and small. We therefore ask you to complete this short questionnaire and return it as soon as possible to one or both of the email addresses below.

1. Which Medspiration products do you use?

	Usage	Operationally	Regularly	Occasionally	Never
L2P products					
AATSR					
SEVIRI					
NAR					
L4 products					
Mediterranean UHR					
Marcoast					

2. Which of these Medspiration services do you use ?

	Usage	Operationally	Regularly	Occasionally	Never
HR-DDS (diagnostic dataset)					
MDB (Match-up database)					

3. Please describe the type of application or downstream service for which you use Medspiration data

4. If you provide further data products using Medspiration data, please list them.

5. Are others dependent on the products/service you provide using Medspiration data? Please indicate the type and number of users.

6. Are you broadly satisfied with the Medspiration Products and / or Service?.
If not please briefly explain why not

7. Would your application or downstream service be seriously affected if the Medspiration service were withdrawn?

8. Have you any recommendations for improving the Medspiration service?

9. Have you any recommendations for improving Medspiration data products?

10. Are you aware that Medspiration is part of a global SST service: - the GHRSSST-PP ?

Please tell us: Your name
position & Organisation

Email:
Country

Please return completed questionnaires to: Medspiration project manager, Ian Robinson (isr@noc.soton.ac.uk),
or: GHRSSST-PP International Director, Craig Donlon (craig.donlon@metoffice.gov.uk)
